Product description

- Tops**
- 25 mm thick particle board, density 650 kg/m³;
 - Wood "ecologically certified" by the PEFC and FSC, in recognition that all or a proportion of the timber used is sourced from sustainably managed forest. Our tops are made from material certified to FSC-STD-40-004 (vers.01);
 - Particle board certified to E1 (control of formaldehyde emissions) with an emission level of 6.5 mg HCNO/100 mg and compliant with standards EN 120/92 and NF EN 717-2;
 - Board is covered with a sheet of decorative monochrome or wood effect paper. During the High Resistance Melamine process, this paper is impregnated with a duroplastic resin to provide maximum protection, an industrial process which ensures that the furniture achieves outstanding results in terms of resistance to scratching and abrasion, thereby meeting the EN438 standard. An additional sheet of paper applied to the underside of tops to provide balance is also impregnated with duroplastic resin;
 - Edges protected by a 2 mm thick strip of ABS (Acrylonitrile Butadiene Styrene), which is glued to the board and rounded at the top and bottom for maximum user comfort;
 - 10 mm Securit toughened glass, with polished edges serigraphically finished in light grey 7035. This finish is achieved by applying paint to the underside before placing in the oven, a process which eliminates the risk of scratching and ensures that the paint does not flake off;

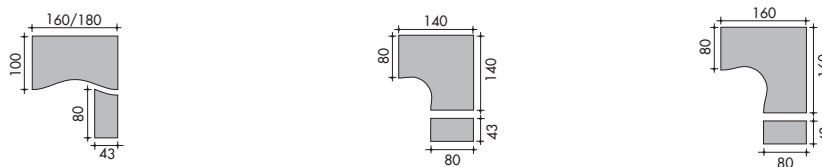

- Desktop fire safety classification: in accordance with the FD - P92-057 standard, particle board greater or equal to 18 mm in thickness is classified as M3 (combustible, moderately flammable);
 - Maintenance advice: use soapy water and avoid products which contain solvents.
- Structure**
- Bridge Tubular steel legs of arched design - triangular cross-section 58 x 58 x 80 mm. To the horizontal section of each arch are welded 2 or 4 brackets (150 x 60 mm, 20/10 thickness) to support the desktop and 1 to 4 "U" shaped hooks made from folded sheet steel (4 mm thick) for attachment to the beam;
 - Support is provided in the form of a welded sheet steel beam, 2 mm in thickness, comprising 2 inverted "C" shaped sections measuring 55 x 70 cm;
 - Standard legs, fixed height 73 cm, or height-adjustable legs, adjustable from 62 to 86 cm at 2 cm intervals by means of a push-button mechanism;
 - Cable management: horizontal, within the "C" shaped beam, each side of which measures 3 cm x height 2 cm in section; vertical: see optional extras.

Product description

Tops

- Technical specifications as per 4Most (page 4);
- Sizes available: 140 x 70, 160 x 70 and 180 x 70 cm;
- Overall depth of an element comprising 2 face to face desktops and a central cable trough: 165 cm.

Structure

- Large capacity central metal cable trough, D. 25.0 x 12.6 cm, with vertical partition containing a 30 cm opening for wires and cables. Easy access from above via 2 removable covers in translucent white altuglass, D. 10 cm, 0.6 cm thick, complete with openings to allow wiring to be fed through to the desktops.

Legs

- Technical specifications as per 4Most (page 4). Standard (fixed height) legs only, H. 73 cm;
- 2 types: terminal legs, W. 165 cm, of "Bridge" or "Frame" design, and intermediate legs, W. 165 cm, of "Bridge" design only. Intermediate legs are set back from the edge of the desk.

Desktop screens and accessory rails

- Rectangular screens with steel frames, H. 40 cm 5.2 cm thick;
- Secured by means of M6 screws to the upper horizontal bar of the legs, desktop screens come complete with a double aluminium rail at the top on each side - perfect for attaching flat screen monitor arms and functional accessories. Screens are available in altuglass, 6 cm thick, or fabric-covered particle board, 25 mm thick.

Linking bar to connect pedestals, tops and beams

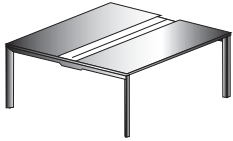

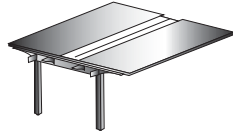

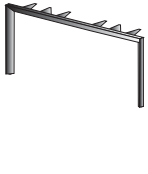

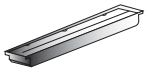

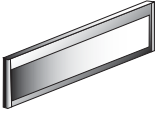

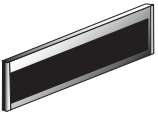

- Identical to the upper horizontal bars of terminal legs, linking bars have 2 or 4 attachment points (80 and 165 cm models respectively). They are attached to desk height pedestals 80 cm in depth and may be used in place of the legs.

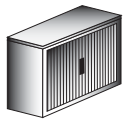

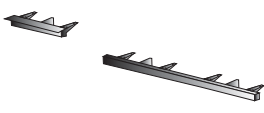

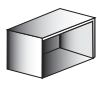

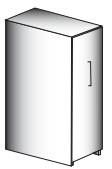

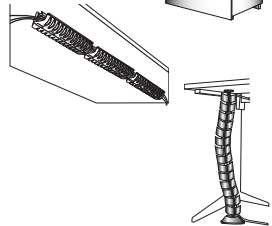

Space Box

- Made from melamine and measuring W. 80 x D. 42 x H. 40 cm, the Space Box is designed to fit on top of desk height pedestals 80 cm in depth and act as a pedestal top.

Tower pedestal: X-Box

- Made entirely from metal - H. 130 x D. 80 x W. 45 cm;
- One piece construction. Sliding door, with central locking and safety mechanism to prevent the pedestal from tipping over. Lock with removable cylinder - master key available;
- supplied complete with 2 numbered keys;
- Interior comprising: a ribbed rear panel, H. 70 cm, for the storage of accessories, a frame for suspension files, a removable sliding bar for all types of suspension files, a 30 x 30 cm sliding shelf over the frame and a height-adjustable shelf for suspension files. Flat base.
