# GALAXY

This one's a real contradiction. A team player which can also stand on its own two (or rather four) feet. Including interlinking tables and writing tablets, this modular range will work within any space. There's also a back option if you're after a little more support. One module, multiple options, if you really believe it's hip to be square, go for Galaxy.

Please refer to price list for dimensions.

LBR | PUB | HOT

# GEMINI

Is it a chair, stool or sofa? Well, all of these actually. Gemini gives more options than you can shake a stick at. It comes in three modular designs – Ying, Yang (the clue is in the name here) and Bite – to offer real layout heaven. Add a back option and Ying turns from cheeky chair to funky sofa or put Ying and Yang together in perfect harmony to make the mother of all seats. Original, versatile and oh-so-easy on the eye, what would you do with yours?

# SOLAR

Don't be fooled by Solar's innocent exterior. It's a style chameleon just waiting to be unleashed. A tub range with a twist, if you will. Solar is available on castors, with a playful swivel, cantilever style or with a traditional solid base with covers that you can change until your heart is content. You'd be hard pushed to find a more versatile tub.

# PISCES

You just can't go wrong with Pisces – our timeless tub. It's a real pedigree. Classy and elegant, the range includes both chairs and sofas. Available in a selection of finishes: shiny aluminium for the magpie in you or rich wood should you be more of a naturalist. Reliable and good looking, what more could you possibly want?

# LUNAR

Lunar knows how to make a good impression. Slick, chic and stylish, this range has got serious attitude and boy, does it mean business. These meaty armchairs and sofas are the epitome of modern style. You may even be tempted to take yours home. Who said that reception furniture had to be boring?

Please refer to price list for dimensions.

# AURORA

“To boldly go where no tub chair has ever been before...” or something like that. Aurora is a groovy little number available in a couple of styles. Because of its innovative design, we can even upholster the seat, back and sides in a different fabric or colour. Just how daring do you want to be?

Please refer to price list for dimensions.

# PLUTO

**PLUTO** < soft seating >

As the saying goes "if it ain't broke, don't fix it". Pluto is a staple beauty. Like an old friend, it's dependable, sturdy and has your best interests (well your comfort in any case) at heart. This range includes two and three seaters and a chair which can be supplied with a writing tablet. Sticking with tradition doesn't have to be old fashioned.
